#### INTERNATIONAL SEARCH REPORT

International application No.

PCT/KR2005/000214

Box No. I Nucleotide and/or amino acid sequence(s) (Continuation of item1.b of the first sheet)
1. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, the international search was carried out on the basis of:
a. type of material  a sequence listing  table(s) related to the sequence listing
b. format of material  in written format  in computer readable form
c. time of filing/furnishing  contained in the international application as filed  filed together with the international application in computer readable form  furnished subsequently to this Authority for the purposes of search
2. In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
3. Additional comments:
•

International application No. PCT/KR2005/000214

### A. CLASSIFICATION OF SUBJECT MATTER

#### IPC7 C12N 15/00

According to International Patent Classification (IPC) or to both national classification and IPC

#### B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC7 C12N 15/00, C12N 15/04, C12N 15/81, C12N 15/90, C07K14/47,A61K 38/17

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Korean Patents and applications for inventions since 1975

Electronic data base consulted during the intertnational search (name of data base and, where practicable, search terms used)

NCBI PubMed, Esp@cenet, CA "LK8 protein, Saccharomyces cerevisiae, delta-sequence, neo gene, mass production"

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No
. Ү	WO 2001/019868 A1 (MOGAM BIOTECHNOLOGY RESEARCH INSTITUTE) 22 MARCH 2001 (22.03.2001) See the whole document	1-18
. ү	LEE F.W.F & DA SILVA N.A., 'Improved efficiency and stability of multiple cloned gene insertions at the delta sequence of Saccharomyces cerevisiae', In: Appl. Microbiol. Biotechnol., 1997, Vol. 48, pp. 339-345  See the whole document	1-18
Y	KIM M.D. et al., 'Enhanced production of anticoagulant hirudin in recombinant Saccharomyces cerevisiae by chromosomal delta-integration', In: J. Biotechnol., 2001, Vol. 85, pp. 41-48  See the whole document	1-18

į	Ш	Further	documents a	re listed	in the	continuation	of Box	C.
---	---	---------	-------------	-----------	--------	--------------	--------	----

See patent family annex.

- \* Special categories of cited documents:
- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family

Date of the actual completion of the international search

27 APRIL 2005 (27.04.2005)

Date of mailing of the international search report

29 APRIL 2005 (29.04.2005)

Name and mailing address of the ISA/KR
